

Let's Get Together

Toby Lightman

There's always an open door
Love and laughter lives here for sure
Don't have to be a holiday
For me and you to celebrate

Every time with you is better
Let's get together
Let's get together
Rain or shine, any kind of weather
Let's get together
Let's get together

Let's get together
Let's get together

The party's just about to begin
Don't bother knocking, come on in
If you wanna bring all of your friends
Everybody's welcome
Everybody's welcome
Everybody's welcome

Every time with you is better
Let's get together
Let's get together
Rain or shine, any kind of weather
Let's get together
Let's get together

Let's get together
Let's get together

Come on, if you wanna
Shake it up, I'm gonna
Anytime, anywhere
If I'm with you I don't care

Every time with you is better
Let's get together
Let's get together
Rain or shine, any kind of weather
Let's get together
Let's get together

Every time with you is better
Let's get together
Let's get together
Rain or shine, any kind of weather
Let's get together
Let's get together
