

# Make a Wish

Toby Lightman

You carry a weight on your shoulders  
You're pulling you down  
Throw it away, the past is over  
Take away with you the lessons that you learned  
You keep finding even more with every turn  
Don't hesitate, let magic take  
Take you over, it's taking over

And make a wish on a star tonight  
Tonight, tonight  
And a spark will fly tonight, tonight  
Make a wish on a star, the one  
Be brave, close your eyes  
And make a wish on a star tonight, tonight  
Make a wish on a star tonight

You gotta believe  
Something is out there  
Watching over you  
So go on and breathe  
In all the warm air  
Take a chance on the feeling in your heart  
That's the only way and dream right from the start  
Don't hesitate, let magic take  
Take you everywhere  
Go everywhere

And make a wish on a star tonight  
Tonight, tonight  
And a spark will fly tonight, tonight  
Make a wish on a star, the one  
Be brave, close your eyes  
And make a wish on a star tonight, tonight  
Make a wish on a star tonight

Tossin' in a coin, crossin' my heart  
Blowin' out the candles (Oh)  
I'm tossin' in a coin, crossin' my heart  
Blowin' out the candles (Oh)  
I'm tossin' in a coin, crossin' my heart  
Blowin' out the candles (Oh)  
I'm tossin' in a coin, crossin' my heart  
Blowin' out the candles

And make a wish on a star tonight  
Tonight, tonight  
And a spark will fly tonight, tonight  
Make a wish on a star, the one  
Be brave, close your eyes  
And make a wish on a star tonight, tonight  
Make a wish on a star tonight

Yeah, oh-oh-oh-oh
