

Snow Day

Toby Lightman

There's no school, work is closed
Watch all the plows, clear out the roads
My dear, bells are near
We're wrapping up presents in ribbons and bows
We'll sit by the fire, drink cocoa and talk without a telephone
wire
It's true, yeah I knew, the holidays are coming, can't you hear
the choir

We can frolic and play in the snow on a sleigh
Just you and me on our snow day
It's the best time of year, it's the best holiday
Just you and me, on our snow day

Got my hat, got my gloves
But you'll keep me warm, I know It my love
I swear, we will share
A day in the snow with the sun up above
It's frosty and cold
And we're jumping so high in piles of snow
No end, we will spend every holiday together
Away we're gonna go
