

Spaces

Toby Lightman

Here it was
A late night story
Fell in the fold and nobody's holding me
Dreams get lost
When they find their glory
Don't fear the end cause
Then you sink underneath

Do you wanna save me, wanna save me
Do you wanna save me

Give it up my love
No spaces in between us
Give it up my love
There's a breaking point in all of us

We're young and still wild for it
Closing the gap and that's when
It's hard to breathe
Years go by and we're moving towards it
Feel the unrest but you're the one thing I need

Do you wanna save me, wanna save me
Do you wanna save me

Give it up my love
No spaces in between us
Give it up my love
There's a breaking point in all of us
Gonna break you down now
Pieces on the ground now
I will fill the space always, always
Give it up my love
No spaces in between us

I will fill the space always always

Give it up my love
No spaces in between us
Give it up my love
There's a breaking point in all of us
