You Got My Love

Toby Lightman

Everybody can have a bad day
But don't worry, it won't last long
If you ever feelin' that way
Call me up on the telephone
I'll come right over and I'll be your shoulder
Lean on me when you're in need
Cause I love you, I love you

Let there never be a doubt
Baby, sure enough got my love
If you're ever down and out
Baby, You got my love

People think we're moving fast
But they don't know, what we know
This love ain't gonna pass
Where you go, I will go
Don't have to hide it, let's stand right by it
Lean on me when you're in need
Cause I love you, I love you

Let there never be a doubt
Baby, sure enough got my love
If you're ever down and out
Baby, You got my love

The many ways of love are a mystery
To me
Just look ahead into the future
There I'll be
