

# Gotta Let You Go

Toby Love

[Verse 1:]

There's something hurting me inside  
Girl I've had about enough  
We don't even make sweetlove (no more oh)  
I'm tired of sleeping alone at night  
Can't even talk all we do is fight  
You b alone tonight  
Let's leave this all behind

I gave up everything  
From purses to diamond rings  
Hardly gave u a thing  
I'm sorry babygirl  
Now that she's in my world  
Can't fight the feeling  
It's the way she makes me feel

[Chorus: x2]

Can't deny the way she makes me feel  
Breaking up is so hard to reveal  
But I gotta let u go  
Don't want u no more  
Girl you must go on

[Verse 2:]

Now that it's over  
My other girl took over  
It was nice to know ya  
Girl u won't believe

How shorty pleases me (hey)

I wana go back to when

The day befor we met

Then there would be no reason

No complicated reasons

No reasons to forget

I gave up everything

From purses to diamond rings

Hardly gave u a thing

I'm sorry babygirl

Now that shes in my world

Can't fight the feeling

It's the way she makes me feel

[Chorus x2]

[Bridge:]

U must be used to ya cryin (cryin)

All the time fussing and fightin

Wel I'm leavin you tonight

I don't want you no more

Homegirl would never kick me out the door

And shorty just loves me more

That's why I'm leaving u tonight

[Rap:]

U shot me right through the heart

I'm falling apart days become night

Nights I'm all lost where do I start

So many stroies I can tell

Thinkin u playin me but your really playin yourself

No one can do it like me your gonna b playin with yourslef

Your gonna miss me really regret u dissed me

But I can't front I missed getting freaky to

Me tiene loco all I think about is me and you

[Chorus]
