

DIE YOUNG

Toby Mai

Baby, I'm alone how you feeling right now?
Right now
Claiming that you're good, girl
Wish it was the truth, girl
But you're coming round'
Baby, if you want it you can get it
How you feeling right now
Ooh, right now
Tell me what's the move, girl
All I want is you, girl
I don't mess around

I'm breathing you in and out of my lungs
It'll never change that you're my drug
Baby, do you know that we could die young
We could die young
We could die young

So baby, will you love me, love me
And baby, will you trust me, trust me
Cause I just wanna love you, love you
And I just wanna touch you, touch you

So baby, will you love me, love me
And baby, will you trust me, trust me
Cause I just wanna love you, love you
And I just wanna touch you, touch you

Baby, I'm alone how you feeling right now?
Right now
This money is all new, girl
All I'm tryna do girl
Is throw it all around (wanna throw you round)
I'm on another level but just trust me
Imma need you when I'm coming down
Claiming that you're good, girl
Wish it was the truth, girl
But you're coming round

I'm breathing you in and out of my lungs
It'll never change that you're my drug
Baby, do you know that we could die young
We could die young
We could die young

So baby, will you love me, love me
And baby, will you trust me, trust me
Cause I just wanna love you, love you
And I just wanna touch you, touch you

So baby, will you love me, love me
And baby, will you trust me, trust me
Cause I just wanna love you, love you
And I just wanna touch you, touch you

You drive me crazy
You want my babies

You got me under chains
You got me under cuffs
So baby won't you come and just

So baby, will you love me (love)
And baby, will you trust me, trust me
Cause I just wanna love you, love you
And I just wanna touch you, touch you

Oh no
