Stoned in love, girl, you got me high
Stoned and drunk in your paradise
Got me numb till the day I die
Oh

Sip champagne or we could talk all night
Hit the club or we could stay inside
What you like?
What you like?
'Cause baby girl, it's only you
Cross my heart with something new
Keep it low on what we do
And all she wants is to go downtown
I'm way too

Stoned in love, girl, you got me high
Stoned and drunk in your paradise
Got me numb till the day I die
Oh

Take it off soon as I come through
All blacked out, that's just how we move (How we move)
How we move (How we move)
How we move
'Cause baby girl, it's only you
She bring her friends just for the crew (For the crew)
Drop these songs they follow suit (Follow suit)
And all these girls stay down for the ride (For the ride), oh

Stoned in love, girl, you got me high
Stoned and drunk in your paradise
Got me numb till the day I die
Oh

Uh, uh
Fuck one time just for the buzz (For the buzz)
Hit two time in showin' love (Showin' love)
She don't really care what we do
She just wanna have some fun (Have some fun)
Baby, you got no one else to love
And I'ma make so damn sure of it (Sure of it)
I'ma make you feel so good
Yeah, I'ma make you feel so good

'Cause baby girl, it's only you
You're all I love
And you're all I need
It's only you giving me this peace, oh now
