

# Bring On The Holidays

TobyMac

Come on baby let's not fight  
I'm gonna catch the early flight  
Before our streets are dressed in white, I'll be there  
And please don't decorate the tree  
Have a little heart and wait for me  
I love the night especially, I'll be there

Cause this is the season I love  
Yeah, this is the season for love

I love the holidays  
Never too far away  
Cause no matter where I go  
I find my way back home  
So happy holidays  
Oh, happy holidays

Cause this is the season I love  
Yeah, I still believe in, in love

I love the holidays  
Never too far away  
Cause no matter where I go  
I find my way back home  
So happy holidays  
Oh, happy holidays

So come on baby let's not fight  
It's Christmas Eve tomorrow night  
Before the streets are dressed in white, I'll be there  
To celebrate our savior's birth  
And we will pray for peace on earth  
It's Christmas all around the world

Oh, I love the holidays  
No matter where I go  
Baby I'm coming home

So bring on the holidays  
Never too far away  
Cause no matter where I go  
Oh, I find my way back home  
So happy holidays  
Oh, happy holidays  
Bring on the holidays  
So happy holidays
