

# Deeper

TobyMac

I need to get below the surface  
People up there, they get me nervous  
Some days I pray I got no service  
'Cause that phone is robbin' me of purpose

You can always tell me when I'm needin' a push  
Breathe a little deeper just to slow down the rush  
If you got the time could you just come by and hang?  
We'll put it all aside and marinate on some things

Deeper, I wanna go deeper  
I'm getting tired of the surface  
Deeper, I wanna go deeper  
I'm getting tired of the surface, tired of the surface

Tired of the surface, tired of the surface (T. Wells)

Let's stop and have a conversation  
Tell me what's really goin' on  
You probably feel some reservation  
Real talk is fadin' like a song

'Cause I've been lost in my thoughts for a couple of days  
You know I can't catch my mind when it's running away  
If you can make the time can me and you conversate?  
Let's push aside the noise and marinate on some things

Deeper, I wanna go deeper  
I'm getting tired of the surface  
Deeper, I wanna go deeper  
I'm getting tired of the surface, tired of the surface

Tell me what's been goin' on with you  
And I'll tell you everything I've been walking through  
Deeper (Yeah, yeah)  
I'm gettin' tired of the surface

If you need a friend, need some shade  
I'll always be a safe place  
If you need some love, someone to pray  
I'll stay up all night for you  
I'll leave on the light for you

Ooh-ooh-ooh-ooh (Ooh-ooh, ooh-ooh, ooh-ooh)  
Yeah, yeah

Deeper, I wanna go deeper (I wanna go, I wanna go, I wanna go)  
I'm getting tired of the surface  
(Getting tired of the surface)  
Deeper, (Oh, yeah) yeah, yeah  
I'm getting tired of the surface, tired of the surface

We gon' take it down to the roots  
To the roots, to the roots  
We gon' dig a little deeper, just me and you  
Me and you, me and you  
We gon' take it down to the heart of it

To the heart of it  
I 'ma meet you where you are  
We gon' talk through every part of it, yeah  
We gon' talk through every part of it  
We gon' talk through every part of it
