

# Heart Of My Beat

TobyMac

I think about my life, I get emotional  
Take the glory, You can have it all  
You can have it all, You can have it all

From the start to eternity  
You are the fresh air I breathe  
You will always be  
The heart of my beat, the heart of my...  
You put the soul in my melodies  
I write the songs in Your key  
Yeah, You will always be  
The heart of my beat, the heart of my...

Been up a mountains, been through the valleys  
Hit every city on the way over to Cali (Cali)  
I never dreamed that we would take it this far  
But every time I turn You open the door  
Look in the rearview, I catch the big plan  
An' every twist and every turn I see Your good hand  
You got that grip and You never let go, ha ha  
You got that grip, yeah, You never let go

You put the life in my lungs when the passion's dead  
You're the beautiful thoughts fillin' up my head  
You pull the curtains back an' my mind is blown  
Let's go, let's go, let's go

From the start to eternity  
You are the fresh air I breathe  
You will always be  
The heart of my beat, the heart of my...  
You put the soul in my melodies  
I write the songs in Your key  
Yeah, You will always be  
The heart of my beat, the heart of my...

This song is religion, this song is my vision  
I'm keepin' no secrets about Your provisions  
It's always been You  
Everyday You twist it  
It's always been You  
Tell me, how could they miss it?

You put the life in my lungs when the passion's dead  
You're the beautiful thoughts fillin' up my head  
You pull the curtains back an' my mind is blown  
Let's go, let's go, let's go

From the start to eternity  
You are the fresh air I breathe  
You will always be  
The heart of my beat, the heart of my...  
You put the soul in my melodies  
I write the songs in Your key  
Yeah, You will always be  
The heart of my beat, the heart of my...

You put the life in my lungs when the passion's dead  
You're the beautiful thoughts fillin' up my head  
You pull the curtains back an' my mind is blown  
Let's go, let's go, let's go

From the start to eternity  
You are the fresh air I breathe  
You will always be  
The heart of my beat, the heart of my... (Whoo)  
You put the soul in my melodies  
I write the songs in Your key  
Yeah, You will always be  
The heart of my beat, the heart of my... (Yeah)
