

Lights Shine Bright

TobyMac

Lights shine bright everywhere we go
Music for the people
Making music for the people
Lights shine bright everywhere we go
Lights shine bright everywhere we go
Everywhere we go
Music for the people
Makin' music for the people

I wanna magnify Your light
I wanna reflect the sun
Cut like precious diamonds
With the colors by the millions
This is the only world we know
And for now this rental's our home
If we gonna be a reflection
Gotta make this third rock glow
Just so you know

Lights shine bright everywhere we go
Music for the people to illuminate the soul
Lights shine bright everywhere we go
Music for the people, makin' music for the people

Lights shine bright everywhere we go
Music for the people to illuminate the soul
Lights shine bright everywhere we go
Music for the people
Jesus music for the people

Everywhere we go
Lights shine bright, lights shine bright
Everywhere we go
Lights shine bright, lights shine bright

Lights in the city might be more than pretty, pretty
That freaky shine might be more than meets the eye
Anytime you see that sparkle in the dark you might look deeper, deeper
It might be more than simply theatre

Yo, that smile might be joy that's connected to the spirit
The spirit might be contagious if you dare, you dare come near it
I remember, can't forget, peace that you can't second guess
Sparkle as the light reflects we writin' pay it forward checks

Lights shine bright everywhere we go
Music for the people to illuminate the soul
Lights shine bright everywhere we go
Music for the people, makin' music for the people

Lights shine bright everywhere we go
Music for the people to illuminate the soul
Lights shine bright everywhere we go
Music for the people
Jesus music for the people

Everywhere we go

Lights shine bright, lights shine bright
Everywhere we go
Lights shine bright, lights shine bright

The lights in the city shine bright
The lights in the city shine bright
So let your heart light shine tonight

Lights shine bright everywhere we go
Music for the people to illuminate the soul
Lights shine bright everywhere we go
Music for the people, makin' music for the people

Lights shine bright everywhere we go
Music for the people to illuminate the soul
Lights shine bright everywhere we go
Music for the people
Jesus music for the people

Everywhere we go
Lights shine bright, lights shine bright
Everywhere we go
Lights shine bright, lights shine bright
Music for the people, makin' music for the people
