

# Like A Match

TobyMac

I keep hearin' people say, I need a getaway  
We got that getaway that takes 'em to a whole new place  
Won't leave us empty, won't leave us craving more  
We found that fulfillin' fire that they been lookin' for

Oh oh oh oh  
If it's real, we gotta show it  
Oh oh oh oh  
'Cause if it's not, they sure gonna know it

You and me, we gotta love  
Hold nothing back  
You and me, we gotta love  
Strike it up, like a match

Burnin' for the world, we're  
Burnin' for the world  
Burnin' for the world to see  
You and me, we gotta love  
Strike it up, like a match

Ever tasted something sweet knock you off your feet  
Or bumped a song, all night long kept it on repeat  
I call up all my friends, I gotta let 'em in  
I tell 'em, "take a drink of this and never thirst again"

Oh oh oh oh  
If it's real, we gotta show it  
Oh oh oh oh  
'Cause if it's not, they sure gonna know it

You and me, we gotta love  
Hold nothing back  
You and me, we gotta love  
Strike it up, like a match

Burnin' for the world, we're  
Burnin' for the world  
Burnin' for the world to see  
You and me, we gotta love  
Strike it up, like a match

That's who we are, who we are  
That's who we are oh oh oh oh  
That's who we are, who we are  
That's who we are oh oh oh oh

If it's real, we gotta show it  
'Cause if it's not, they sure gonna know it  
If it's real, we gotta show it  
'Cause if it's not, they sure gonna know it  
they gonna know it

You and me, we gotta love  
Hold nothing back  
You and me, we gotta love  
Strike it up, like a match

Burnin' for the world, we're  
Burnin' for the world  
Burnin' for the world to see  
You and me, we gotta love  
Strike it up, like a match

We gotta love, love  
(Oooh)  
Strike it up like a match
