No one believed her
No one imagined it was true
No one could see her
Winter haven coming into view

She says she's seen the land beyond
She says she's walked her Babylon
She felt the cold beneath her feet
Where time stood still
Where the winter won't sleep
(Where the winter won't sleep)

I've seen the New World
(Like nothin' before, Just step through the doorway)
Into a New World
(Into Narnia)
I've seen the New World
(Like nothin' before, Just step through the doorway)
Into a New World
(Into Narnia)

All hope was fading
A darkness far beyond their might
But love came crusading
On the wings of healing sacrifice
He gave them somethin' to believe
Came back in all his majesty
He conquered evil through his love
Inhibited the land they were dreamin' of
(Love came crusading)

I've seen the New World
(Like nothin' before, Just step through the doorway)
Into a New World
(Into Narnia)
I've seen the New World
(Like nothin' before, Just step through the doorway)
Into a New World
(Into Narnia)

I never dreamed it but it seems that he's alive again
Shakin' his mane he's just the same as I remember him
The spell is wakening with every breath he's breathin' in
And when I love it he's our king again

(There, just behind the waterfalls)

(I've seen a New World.)
Into a New World
(Into Narnia)

I've seen the New World
(Like nothin' before, Just step through the doorway)
Into a New World

(Into Narnia)
I've seen the New World
(Like nothin' before, Just step through the doorway)
Into a New World
(Into Narnia)
Into a New World
(Into Narnia)
