

# Rearview

TobyMac

Just woke up from another bad dream  
I did the thing my daddy did to us  
When he walked out on my mother  
That trauma left us scrambling for cover  
I'm being haunted by the question  
Did the apple fall far enough?  
And it's on me like a vulture  
All these fears tryna shape me like a sculptor

'Cause I be hangin' up and then you call back  
I pick it up and then I'm right back  
And every time I let you come around  
You pullin' me down, I'm bad with it

I hit the valleys but I passed through  
I see the failures but I can't lose  
I think it's finally time to tell you  
I put that trouble in my rearview

(Step down down) I step down on them let downs  
(Step down down) My top down going outta town  
I switched it up for something brand new  
I put that trouble in my rearview

Been seeing double for a long time  
Can't keep my eyes up off the rewind  
I'm back and forth like the ocean  
Tryna move ahead but the past is ferocious  
Heavy days turn to heavy nights  
But heavy love makes a burden light  
There's only one I can turn to  
King of today and the King of my rearview

I turn around it's like I never left  
Your mercy's gotta be my greatest gift  
I get in a little too deep  
It's easy to see I'm bad with it

I hit the valleys but I passed through  
I see the battles but I can't lose  
I think it's finally time to tell you  
I put them troubles in my rearview

(Step down down) I step down on them let downs  
(Step down down) My top down going outta town  
I switched it up for something brand new  
I put that trouble in my rearview

We movin' on we movin'  
We movin' on we movin'  
We movin' on we movin'  
I put them troubles in my rearview

(I'm movin' on) We movin' on we movin'  
(I'm movin' on) We movin' on we movin'  
(I'm movin' on) We movin' on we movin'  
(I pray and movin' on) I put them troubles in my rearview

I put them troubles in my rearview  
I put that trouble in my rearview
