

# Resist (Keep The Devil Away)

TobyMac

Trouble to my left and right  
Hard days turn to sleepless nights  
Looks like paradise  
Got your boy believin' lies  
Causin' me to crave it  
Make me wanna chase it  
But I know  
Now I know

Give me the feet to walk on water  
Keep me from the deep  
Give me faith to move that mountain  
Give me the eyes to see  
Give me the lungs to shout Your praises  
Give me a song to sing  
Give me the feet to walk on water  
And keep the devil away from me

Keep the devil away from me  
Keep the devil away from me  
Callin' on the name of Jesus  
Keep the devil away, keep the devil away  
Keep the devil away, keep the devil away

Hold on, hit the rewind  
Was feelin' low like a bass line  
Someone turned off the sunshine, huh  
Lost time in the rabbit hole  
Ain't gonna lose my soul  
Fits like a glove, but cuts like a knife  
Once is enough  
He ain't gonna get me twice

Give me the feet to walk on water  
Keep me from the deep  
Give me faith to move that mountain  
Give me the eyes to see  
Give me the lungs to shout Your praises  
Give me a song to sing  
Give me the feet to walk on water  
And keep the devil away from me

Keep the devil away from me  
Keep the devil away  
Keep the devil away from me  
Keep the devil away  
I'm callin' on my Savior  
Keep the devil away, keep the devil away  
Keep the devil away, keep the devil away

You're the only one who can save me  
Oh, Lord  
Lord, I need You now  
Lord, I need You now  
Callin' on the name of Jesus  
Jesus  
No, don't let him take me down

No

Resist and he will flee from you, resist and he will flee  
Resist and he will flee from you, resist and he will flee (Resist)  
Resist and he will flee from you, resist and he will flee (Resist)  
Keep the devil away, keep the devil away  
Keep the devil away, keep the devil away

Keep the devil away  
My shelter, my refuge  
Keep the devil away  
My only defense  
Keep the devil away  
Callin' on the name of Jesus  
Keep the devil away, keep the devil away  
Keep the devil away, keep the devil away  
We gotta resist, resist  
Resist and he will flee from you, resist and he will flee  
We gotta resist, resist  
Resist and he will flee from you, resist and he will flee  
We gotta resist, resist  
Resist and he will flee from you, resist and he will flee  
Keep the devil away, keep the devil away  
Keep the devil away, keep the devil away
