

Starts With Me

TobyMac

One day (One day, one day, one day, one day)
This nation will rise up (Rise up, rise up, rise up, rise up)
Rise up (Rise up, rise up)

There's a million reasons to hesitate
With a history that's filled with hate
Have we ever been united states?
I wonder (oh, oh, oh)
So who can blame us for the doubt
Forgive me if I think out loud
But we're just as just won't come around
I wonder (oh, oh, oh)

I was born with two, dirty hands
Something my daddy didn't understand
Something his daddy didn't understand
So it starts with me
I was raised with distrust, in my heart
Momma told me we're in worlds apart
Her momma told her don't even bother
So it starts with me

'Cause we can be free, yeah I know that
Let's try to fix the things that's been broke down
'Cause we can be free, yeah I know that
And it starts with me
'Cause we can be free, yeah I know that
Let's try to fix the things that's been broke down
'Cause we can be free, yeah I know that
And it starts with me

With a heavy road in front of us
And a system that has lost our trust
Can we ever find the strength to rise from ashes?
And looking at the heart of it
The healing nearly can't begin
Without confession and forgiveness and compassion

I was born with two, dirty hands
Something my daddy didn't understand
Something his daddy didn't understand
So it starts with me
I was raised with distrust, in my heart
Momma told me we're in worlds apart
Her momma told her don't even bother
So it starts with me

'Cause we can be free, yeah I know that
Let's try to fix the things that's been broke down
'Cause we can be free, yeah I know that
And it starts with me
'Cause we can be free, yeah I know that
Let's try to fix the things that's been broke down
'Cause we can be free, yeah I know that
And it starts with me

One day (One day, one day, one day, one day)

This nation will rise up (Rise up, rise up, rise up, rise up)
Rise up (Rise up, rise up)

Can you feel it in your heart tonight?
Love is gonna move the needle
I can feel it in my heart tonight
Oh yeah
Can you feel it in your heart tonight?
Love is gonna move the needle
I can feel it in my heart tonight
Oh yeah
Can you feel it in your heart tonight?
(Can you feel it in your heart tonight?)
Love is gonna move the needle
(Love is gonna move the needle)
I can feel it in my heart tonight
(I can feel it in my heart tonight)

I need you, you need me
One more step, almost free (Almost free, almost free)
Say I need you, you need me
Father give us eyes to see (Aye, aye, aye, give us eyes to see)

'Cause we can be free, yeah I know that
Let's try to fix the things that's been broke down
'Cause we can be free, yeah I know that
And it starts with me
'Cause we can be free, yeah I know that
Let's try to fix the things that's been broke down
'Cause we can be free, yeah I know that
And it starts with me

This language that I speak
This dream on you and me
But one choice from together
It starts with me
This language that I speak
This dream on you and me
But one choice from together
It starts with me
Now is the time
