

It's Working

Todd Dulaney

No eye has seen what God has in store for me
No ear has heard what God has in store for me
No eye has seen what God has in store for me
No ear has heard what God has in store for me
No mind conceived what God has in store for me
No man has dreamed what God...

He has the perfect plan for me
It always causes victory

It will always work out for me
It will always work out for me
It will always work out for me
It will always work out for me
It will always work out for me
It will always work out for me
It will always work out for me
It will always work out for me
It will always work out for me
It will always work out for me
It will always work out for me
It will always work out for me
It will always work out for me
It will always work out for me
It will always work out for me
It will always work out for me

It's working out for me
It's working out for me
It's working out
It's working out
It's working out
It's working out
...
