

# Pulling Me Through

Todd Dulaney

Through all I have gone through Lord it's been You  
Through all that I have gone through Lord it was You, yeah  
It was You, it was You pulling me through  
It was You, nobody but You pulling me through

Through all I have gone through Lord it was You  
Through all I have gone through Lord it was You  
It was You, it was You pulling me through  
It was You, Lord it was You pulling me through

When I stumbled, when I cried  
When it felt like I wanted to die  
When my friends turned and they walked away  
You were right here, right here to stay  
It was You, it was You pulling me through  
It was You, Lord it was You pulling me through

Yes, when I stumbled, when I cried  
When it felt like I wanted to die  
When my friends turned and they walked away  
You were right here, right here to stay  
It was You, Lord it was You pulling me through

He'll never walk out on You  
No never, no never  
He'll never walk out on You  
No never, no never

He'll never walk out on You  
No never, no never  
He'll never walk out on You  
No never, no never

He'll never walk out on You  
No never, no never  
He'll never walk out on You  
No never, no never

I'm a witness that He'll never  
No never, no never  
I'm a witness that He'll never  
No never, no never
