

# Everybody's Going To Heaven / King Kong Reggae

Todd Rundgren

I remember, I remember  
What life was like in the yard  
'Cause you can't ever think about dying  
And it just makes a person get hard

I keep wondering if my friends feel like I do  
I don't know how someone could stand it  
To go through what I'm now going through

So every night we party  
And every night we get too high  
And I put myself so close to death  
'Til I think that I ain't gonna die

And I realize just a little  
Why sometimes I like to feel like dirt  
It's the only thing in this day and age  
That can make me feel close to the earth

But if I ever get to heaven  
If I ever reach that door  
I will listen why I had to go through this life  
Why they just couldn't take me before

But everybody's going to Heaven  
'Cause already we've all been through Hell

We're gonna laugh all night and cry all day  
Watch the big monkey do the King Kong Reggae  
A Cadillac and a Chevrolet  
Watch the big monkey do the King Kong Reggae  
The president of the U. S. A.  
Watch the big monkey do the King Kong Reggae  
Everybody fall down on your knees and pray  
Here comes that big monkey doing the King Kong Reggae
