

## Is It My Name?

Todd Rundgren

There is cause and effect  
There's a reason I'm so erect  
There's last night and there's today  
There's a reason you feel this way  
Is it my name?  
Don't miss the boat Barry, don't miss the plane  
I don't think I can make this scene again  
Why don't you love me?  
Is it my name?

All the lies, all the truth,  
All the things that I offer you  
All the sights, all the sounds  
All the times that you turn me down  
Is it my name?  
My voice goes so high you would think I was gay  
But I play my guitar in such a man-cock way  
Why don't you love me?  
It is my name?

You only love me for my machine
