

Naked & Afraid

Todd Rundgren

You're not from around here
It's pretty plain to see
But everybody knows this
You don't mess with the queen

She may not look imposing
But looks they can deceive
The graveyard's full of bodies
Of those who disbelieve

You are in you are out
There is no in between
Better pray for your life
If you take on the queen

There never was a man that can frighten me
Push the wrong button and just wait and see
I'll leave you naked and afraid

This time you're in way over your head
I'll suck the life blood out of you and if you ain't dead
You'll wake up naked and afraid
Naked and afraid...

You are in you are out
There is no in between
Better pray for your life
If you take on the queen

There's no means of defense
Neither man nor machine
Better pray for your life
If you take on the queen

There never was a man who can frighten me
Push the wrong button and I'm guarantee
I'll leave you naked and afraid

This time you're in way over your head
I'll suck the life blood out of you and if you ain't dead
You'll wake up naked and afraid

You may be the seventh son of the seventh son
But I don't give a damn where you came from
I'll leave you naked and afraid

There never was a man who can frighten me
Push the wrong button and I'm guarantee
I'll leave you naked and afraid
Naked and afraid
