

## Puzzle

Todd Rundgren

People struggle  
Everywhere you look  
It's written on their faces  
Like an open book

Emptiness, unhappiness  
Paralyze your heart  
People are so fragile  
Why is life so hard

Because the world is a puzzle  
So pick up the pieces  
Fit them together again  
One by one  
One by one

One day, life is beautiful  
Like living up in the stars  
The next day, I say look out below  
'Cause I'm falling apart

Emptiness, unhappiness  
Paralyze your heart  
People are so fragile  
Why is life so hard

Because the world is a riddle  
To everyone in it  
Nobody solves it  
The very first time

Because the world is a puzzle  
So pick up the pieces  
Fit them together again  
One by one  
One by one
