

All That Matters

Todd Snider

I can't dance, but I feel like dancin'
Not with anyone, only you
You're as true as love can be
You're all that matters to me

Out in the rain, lost as I was
I said "You think it'll ever stop"
You said "It always does"
And you were right, look and see
You're all that matters to me

All that matters, all that matters
You're all that matters to me
I don't care if I know
Where we come from or where we'll go
You're all that matters to me

You hear that song, that song is our song
And so is the next song
I'm as certain as I'm ever going to be
I don't care about this crowd
Let 'em laugh I'm not proud
Nor am I ashamed for anyone to see

All that matters, all that matters
You're all that matters to me
I don't care if I know
Where we come from or where we'll go
You're all that matters to me
