

Comin' Down

Todd Snider

I don't wanna open that door
I don't wanna turn that key
I don't wanna worry no more
About what you do to me

I don't wanna face this world
Till I can turn it around
Look out below, look out below
Look out below, comin' down

I was on my way up town
I nearly had it all worked out
Now these big guns are knocking me down
To the same old shadows of doubt

I don't wanna see no light
I don't wanna hear no sound
Look out below, look out below
Look out below, comin' down

Nothin's gonna catch me
Nothin' but sky
Somebody help me
Teach me to fly, teach me to fly

Shakin' like a rain soaked dog
Looking for a place to hide
Alone in this empty room
I can see how I feel inside

I guess you can't hide too far
From somethin' that you carry around
Look out below, look out below
Look out below, comin' down

Look out below, look out below
Look out below, I'm comin' down, I'm comin' down, I'm comin' down
