

Enough Is Enough

Todd Snider

Me and my baby
Come down at night
Ran into some screwball
Said he wanted to fight
I said "Alright
"Let's step outside"

Well, hey baby
Well, hey baby, hold my jacket
I can't just let this go, I can't just walk away
He thinks he's so tough I just have to say
Enough is enough
Enough is enough

I'm carryin' nunchucks
Don't think I don't
Maybe I'll use 'em
Maybe I won't
If he's cool I won't
But if he's a tool

Well, hey baby
Well, hey baby, I'll be back in a minute
I can't just let this go, I can't just walk away
He thinks he's so tough I just have to say
Enough is enough
Enough is enough

We'll go man-to-man
Just me and him
But this ain't just about me
It's also 'bout my friend Tim
Took a song from him
Never gave it back

Well, hey baby
Well, hey baby, trust me on this one
If I let this go, if I walk away
I'll just have to call his bluff some other day
Enough is enough
Enough is enough
