Enough

Todd Snider

Baby we were out behind the pool hall
Somewhere in that gravel parking lot
Back then when we hung out til everything was over
And no one cared if we came home or not

Then again it could have been that night in Nashville
When I came up and crashed out on your floor
I can't remember where it was that we stopped talking
Well I can't take this silence anymore

It's hard enough to keep from shakin'
It's hard enough without you keepin' things from me
I don't know why you tried to make things so confusing
Can't you see it's hard enough, hmm

We can't seem to find what we've been missin'
I've looked everywhere we used to be
I've walked up and down this highland strip a hundred times
Wondering why you left this whole mess up to me
It's hard enough to keep from shakin'
It's hard enough without you keepin' things from me
I don't know why you tried to make things so confusing
Can't you see it's hard enough, hmm

It's hard enough to keep from shakin'
It's hard enough without you keepin' things from me
I don't know why you tried to make things so confusing
Can't you see it's hard enough, hmm

It's hard enough to keep from shakin'
It's hard enough without you keepin' things from me
I don't know why you tried to make things so confusing
Can't you see it's hard enough, hmmmmm

It's hard enough
