

## Framed

Todd Snider

Hanging around down on something to do street  
I'm like the first dollar bill that they frame  
I'm watching media coverage of media coverage  
Of some kid who can't make peace with fame  
It must be tough, man  
The paparazzi and stuff, man

Over serving my country under general malaise  
He said he wasn't making peace until they paid him a raise  
He said that killing was paying like I didn't know how  
If peace paid we'd have it made by now  
We'd have it new and improved by now  
If it paid any

I took a better job pouring fluoride in the water  
For the son of the Bilderberg's only daughter  
I said how do you know  
She said you know how you just  
Know something in your gut  
That you just gotta trust  
Well it's nothing like that  
We are just rich as all fuck is all

Setting the London bank association liable rate  
Framed for calling out the united states  
All time prison time wartime economy  
Now it all seem so far off of the wall to me to me  
I'm watching every dollar make change but me  
I've been framed  
I've been framed  
I'm like the first dollar bill on the wall
