

I Am Too

Todd Snider

You know
You've kept me down way too long now
I gotta find me a way to get over you somehow
I wanna sing for a woman that I've never seen
You know my love is bigger than a limousine

If you've got a heart with guts like mine
You know, honey, I can make that pale moon shine
I don't need some phony disco queen
Well, honey, my love is truer than a magazine

If you've been lookin' for me, now, baby
I've been lookin' for you
And if you're lookin' for some trouble, babe,
Well, then, I am too!
Yes, I am too

Tell me somethin' that I don't know
Take me to someplace that I can't go
You know I've seen all there is to see
But, honey you can't play no tricks on me

If you've been lookin' for me, now, baby
I've been lookin' for you
And if you're lookin' for some trouble, babe,
I am too!
Yes, I am too

If you've been lookin' for me, now, baby
I've been lookin' for you
And if you're lookin' for some trouble...

Honey, my love is like kerosene
I know you know what I mean
So, come on, honey
Let's twist and shout
I wanna hit this town til it's teeth come out

If you've been lookin' for me, now, baby
I've been lookin' for you
And if you're lookin' for some trouble, honey,
Well, then, I am too!
Yes, I am too
