

## Juice

Todd Snider

What's that word when you're bustin' loose?  
What's that word when you know you're loose?

I can't roll my window up, it's always down  
I just picked up something on the white side of town  
Stuffed it down in my trunk, stopped by the 3 Crow  
Picked up a bottle of red wine to go  
I like Big Ass Red, screw-off top  
Now I'm driving by the Lipstick, looking out for cops  
'Cause my brake light's broken, and my car's not covered yet  
I'm trying to make it home slow before the sun sets  
Stop and look into the Lipstick quick though  
They've always got hot chicks in the window

What's the word when you're bustin' loose?  
What's that word when you know you're loose?

I never did like the people where I was employed  
Well, they was always out to get me 'cause I'm paranoid  
Now I'm so overjoyed, I can't stop celebrating  
It's tough being unemployed, but not as flusterating  
As having someone I can hardly stand evaluating  
How hard I'm working when I know how fucking hard I'm working  
On a buzz I bet that I'll be feeling any minute  
I'd be a millionaire if there was any money in it  
I got a peace sign beside my driveway  
If peace paid we would have it by Friday

What's the word when you're bustin' loose?  
What's that word when you know you're loose?

What's that word when you're bustin' loose?  
What's that word when you know you're loose?  
What's that word when you're feeling loose?
