

## Just in Case

Todd Snider

You oughta know by now this love of mine is real  
Honey words just can't describe the way I feel  
And even though we just met  
I'm so glad the date is set  
And years from now I would bet  
We'd be together still  
But just in case  
Just in case

This morning I went by my lawyer's place  
I didn't think you would mind  
Here honey sign this dotted line  
What's yours is yours  
And what is mine will always be mine

Just in case  
Well you know I can't love you enough  
But I also can't afford to lose half of my stuff  
There's no doubt in my mind  
These ties that we're about to bind  
Will hold us both together any time it gets too tough

But just in case  
Just in case  
This morning I went by my lawyer's place  
I didn't think you would mind  
Here dumplin' sign this dotted line  
What's yours is yours  
And what is mine will always be mine  
Just in case
