

Late Last Night

Todd Snider

Well could you try to keep it down I was up kinda late
last night?

Now I'm feelin' like I usually feel after I feel
alright

I don't wanna hear another word about mornin'

I can't take the light

Well could you try to keep it down I was up kinda late
last night?

You see there's something inside this world that's gone
so wrong

There's a gap between the rich and the poor a million
miles long

I dig the fact that you and your friends wanna stand up
and make it right

But could you try to keep it down I was up kinda late
last night?

I was down at the bar like the fool I am

Dancin' on the table to Son of Slam

I met a whole lotta people that I still don't know

I just rolled in an hour ago

Could you try to keep it down?

Try to keep it down

Try to keep it down I was up kinda late last night

I don't wanna hear about this Lollapalooza tour

Man I just woke up and where I am I couldn't say for
sure

I ain't the kinda guy to come and break all your
records

But then again I might,

Well could you try to keep it down I was up kinda late
last night?

I was down at the bar like the fool I am

Dancin' on the table to Son of Slam

I met a whole lotta people I still don't know

I just rolled in an hour ago

Could you try to keep it down?

Try to keep it down,

Try to keep it down I was up kinda late last night

Try to keep it down,

Try to keep it down,

Well could you try to keep it down I was up kinda late
last night?

Yeah

Well could you try to keep it down?

Try to keep it down,

Well could you try to keep it down I was up kinda late
last,

I was up all night last night
