

Laying My Life On the Line

Todd Snider

Layin' my life on the line
That's what I do all the time
I find myself each night
Facin' a white light
Layin' my life on the line

Music is my way of life
Sure it gets crazy sometimes
But it takes me places
Where I see the faces
Of people I've touched with my lines

Driving the road here tonight
Thoughts were of Malita and I
How her love sustained me
When the road almost claimed me
And laid my life out on the line

Sometimes it all feels so good
Sometimes I just feel far from home
Sometimes I wonder
Am I just stumbling through here?
Have been on this road for too long?

So here I am out here tonight
Playin' the songs that I like
'Cause the magic in singin'
Comes through when you're bringin'
Your whole life laid on the line
