

## Old Friend

Todd Snider

For as long as I have known you  
You've been coming to my rescue  
And I'm always here to catch you  
Every time you fall  
After all that we have been through  
Guess what it all comes down to  
Is knowing I can call you  
When my back's against the wall

Old friend  
Old friend  
You keep on believing  
Some day we'll come out even  
Even if we lose again  
Old friend  
Old friend  
God knows where we're going  
I guess half the fun's not knowing where we'll wind up in the end

We end up in trouble  
Every time we get together  
People say we should know better  
But I hope we never do  
We can't live forever  
It's here and now or never  
You know one way or another we will always make it through

Old friend  
Old friend  
You keep on believing  
Some day we'll come out even  
Even if we lose again  
Old friend  
Old friend  
God knows where we're going  
I guess half the fun's not knowing where we'll wind up in the end  
Old friend  
God knows where we're going  
I guess half the fun's not knowing where we'll wind up in the end  
Old friend
