

# That Was Me

Todd Snider

Remember back about five years ago  
Drivin' down the highway  
Saw a kid there by the road  
Long blond dirty hair  
His thumb out in the air  
That was me  
That was me

Remember the kid that walked into your store  
The one you told you were sorry,  
You weren't hiring anymore  
So he walked out your door  
His head hung toward the floor  
That was me  
That was me

I'm a face you've seen a million times  
The one who never seems  
To fit in between those lines  
I'm every broken dream  
This world has left behind  
I'm a face you've seen a million times

Remember the kid you saw that night downtown  
Singin' on the sidewalk  
Guitar case on the ground  
He looked down on his luck  
So you threw him a buck  
That was me  
That was me

Remember back about five years ago  
Drivin' down the highway  
Saw a kid there by the road  
Long blond dirty hair  
His thumb out in the air  
That was me  
That was me

That was me
