

Turn Me Loose (I'll Never Be the Same)

Todd Snider

Put your foot on the rock and push it 'til the good times roll
Put your foot on the rock and push it 'til the good times roll
Here's to Colonel Bruce Hampton, may he rest the good lord's soul

You know what rodeo cowboys used to yell when they were ready to go

(Turn me loose, I'll never be the same)

That's what rodeo-

deed cowboys used to yell when they were ready to go

(Turn me loose, I'll never be the same)

It's like another way to say eureka or geronimo

(Turn me loose, turn me loose)

If faith moves mountains, what's it take to leave them alone?

(Turn me loose, I'll never be the same)

I said if faith moves mountains, what's it take to leave them alone?

(Turn me loose, I'll never be the same)

I believe these mountains get around just fine on their own

(Turn me loose, turn me loose)

Until the tide turns over and comes tumbling down from above

(Turn me loose, I'll never be the same)

Until the tide turns over and comes tumbling down from above

(Turn me loose, I'll never be the same)

I won't be moved by more than sorrow or settle for less than love

(Turn me loose, turn me loose)

You know you'll never make a difference if all you do is nickel and dime

(Turn me loose, I'll never be the same)

You know you'll never make a difference if all you do is nickel and dime

(Turn me loose, I'll never be the same)

If we can only help just one person we are wasting our time

(Turn me loose, turn me loose)

We've got to get to everybody (We've got to get to everybody)

We've got to get to everybody (We've got to get to everybody)

We've got to get to everybody (We've got to get to everybody)

We've got to get to everybody (We've got to get to everybody)

If we can only help just one person, we are wasting our time

We've got to get to everybody (We've got to get to everybody)

We've got to get to everybody (We've got to get to everybody)

We've got to get to everybody (We've got to get to everybody)

We've got to get to everybody (We've got to get to everybody)
I get to everybody
Turn me loose, turn me loose, turn me loose...
