

Ways and Means

Todd Snider

I'm shoutin' "Hey, hey, hey"
You gon' be okay
I never worry 'bout you
I know what you've been through
You always wash out clean
You've got the ways and the means

You've got the ways and the means
You've got the ways and the means
Like no one I've ever seen
You've got the ways and the means

I went to the alley cat
Guess what happened after that?
I ran into Warren Pash
He lent me fifty bucks cash
Pulled it out of his a-jeans
He got the ways and the means

You've got the ways and the means
You've got the ways and the means
Like no one I've ever seen
You've got the ways and the means

You're tougher than you feel
I think you might have mass appeal
People like the way you sing
You got that extra little thing
You're gonna make it on the cover of the Nashville Scene
You got the ways and the means

You've got the ways and the means
You've got the ways and the means
Like no one I've ever seen
You've got the ways and the means
