

What's Wrong with You

Todd Snider

You got one shot left I guess but you messed up so bad
last time
I'm about to lose my mind keeping up it's true
You go one way one thing turn around mood swing
Making up a melodrama mama what am I gonna do
You know I heard you the tenth time telling me again
and again
About men making everything harder than it ought to be
And baby you know that isn't true
You know how hard I've tried to keep you satisfied
Mama what's wrong with you

What's wrong with you
What'd I do
You think I wanna be with every other woman in the
world but you
Well I tell you all the time how I'm walking the line
for you
Every time I see you though you treat me like I'm
cheatin' on you
Hey hey hey
Mama what's wrong with you

You took one bad blow I know but you go so far out
sometimes
I'm afraid of making that climb out there to you
You get so high, sink low, the next thing I know
A whole new soap opera mama what am I gonna do
I even saw you last night thumbing through my personal
phone book
Looking into cooking up something you could look at
Till you wound up angry and baby you know that isn't
cool
All this jealousy is just killing me
Mama what's wrong with you

What's wrong with you
What'd I do
You think I wanna be with every other woman in the
world but you
Well I tell you all the time how I'm walking the line
for you
Every time I see you though you treat me like I'm
cheatin' on you
Hey hey hey
Mama what's wrong with you

What's wrong with you
What'd I do
You think I wanna be with every other woman in the
world but you
We got 'em all by the balls all the way to the ribbon
cuttin'
You'd rather sit here with your finger on the panic
button
Hey hey hey
Mama what's wrong with you

I said hey hey hey
Mama what's wrong with you
You took one bad blow I know but you go so far out
sometimes
I'm afraid of making that climb out there to you
You get so high, sink low, the next thing I know
A whole new soap opera mama what am I gonna do
