

# WHILE WE STILL HAVE A CHANCE

Todd Snider

I know how lately I've been walking you crazy  
But I've been saving and I got my eye on a little car  
And just as soon as I save enough more money  
I'm planning on taking you way too far

So don't let the sun burn your sad water blue eyes  
We don't want to miss this dance  
Let's go to Reno one more time  
While we still got a chance

I know that it would take a heart ache or two  
To play and sing that song the way you do  
But I see that halo glowing over you  
And I know this universe is calling you to

So don't let the sun burn your sad water blue eyes  
We don't want to miss this dance  
Let's go to Reno one more time  
While we still got a chance

(We still got a chance)  
(We still got a chance)  
(We still got a chance)  
(We still got a chance)

Way out where legend grows up through the cracks  
And nobody knows how good freedom feels  
Like gypsy roses and ramblin' jacks  
Riding up high on a set of wheels

So don't let the sun burn your sad water blue eyes  
We don't want to miss this dance  
Let's go to Reno one more time  
While we still got a chance

Don't let the sun burn your sad water blue eyes  
We don't want to miss this dance  
Let's go to Reno one more time  
While we still got a chance

While we still got a chance  
(We still got a chance)  
While we still got a chance  
(We still got a chance)  
While we still got a chance  
(We still got a chance)  
While we still got a chance
