

# 2003

Todrick Hall

I daydreamed that we were kids still in high school  
Remember when I ran and hid cuz I liked you  
We fell in love just because we had the right to  
Ain't it crazy how the world and the time flew  
You put your digits in my flip phone  
Turned up the radio so we could get our kiss on  
Ima text you sweet dreams when I get home  
But we forgot to seize the moment until it's gone

Hall pass skippin class in the back lot  
Wish we could travel to the past for one last shot  
You'll be my cheerleader I'll be your mascot  
Take you to the prom steal a kiss that your dad caught  
Years later gettin married how the wine taste  
Ima put you in my top eight on my myspace  
Maybe it's the wrong time but the right place  
But whatever the case just, just

Hop in my jeep, there's no doors on it  
Kick it with me, I'm all yours baby  
We could be wild and free, TBT, like it's 2003  
Lets run to the beach, I wanna feel the  
Sand on my feet, hope I'm still the  
One that you need baby lets fall deep like it's 2003  
Like it's 2003 yeah

I've got initials in a tree with a heart shape  
Long as my baby here with me then my heart safe  
If it's the shoulder that you need on a hard day  
Come lay your worries all on me I'm never far away  
Love is just a pool so baby jump in  
I never knew someone like you that I could trust in  
The things I wouldn't do for you, there is nothin  
They say if love is really true then in must win

Me and you in the tux and the white dress  
You're laughing cuz I spilled a cup on my white vest  
Wish we could just bottle it up cuz it's timeless  
Don't want nobody else cuz my baby is the finest  
Years later gettin older right beside you  
Grateful every single day that fate made me find you  
Maybe in heaven if you want we'll do a part two  
Cuz you know that I do, so just

Hop in my jeep, there's no doors on it  
Kick it with me, I'm all yours baby  
We could be wild and free, TBT, like it's 2003  
Lets run to the beach, I wanna feel the  
Sand on my feet, hope I'm still the  
One that you need baby lets fall deep like it's 2003  
Like it's 2003 yeah
