

# Dance Forever

Todrick Hall

Let me teach what they'll never teach you in school  
When the cool kids grow up, they're never cool  
They're only throwing the sticks and stones 'cause you've got something they don't  
So tell the DJ to put that record on

When the bass starts beating like an earthquake  
And the sweat starts pouring like we're in the rain  
Tomorrow feels forever away  
And we're just so high like we're outta space

Angel's dancing with the devil  
One heart's ready to be rebels  
Dance (dance) forever (forever)  
Tonight, tonight, tonight, tonight, tonight  
One life, twirl until it's over  
One heart, love who you wanna  
Dance (dance) forever (forever)  
Tonight, tonight, tonight, tonight, tonight

Somebody said the whole world is a stage  
So let your body say things that words can't say  
Well, I don't know 'bout tomorrow but I know we got today  
So tell the DJ to let that anthem play

When the bass starts beating like an earthquake  
And the sweat starts pouring like we're in the rain  
Tomorrow feels forever away  
And we're just so high like we're outta space

Angel's dancing with the devil  
One heart's ready to be rebels  
Dance (dance) forever (forever)  
Tonight, tonight, tonight, tonight, tonight  
One life, twirl until it's over  
One heart, love who you wanna  
Dance (dance) forever (forever)  
Tonight, tonight, tonight, tonight, tonight

Tonight

Angel's dancing with the devil  
One heart's ready to be rebels  
Dance (dance) forever (forever)  
Tonight, tonight, tonight, tonight, tonight  
One life, twirl until it's over  
One heart, love who you wanna  
Dance (dance) forever (forever)  
Tonight, tonight, tonight, tonight, tonight
