

## Defying Gravity

Todrick Hall

Point your coward guns  
Taking loved ones everyday  
Something's gotta change we  
Could use some love and lord I pray

Far too many victims gone  
And they didn't have to bleed  
But I know they're with the angels  
Defying gravity

Throw away your bombs  
All your bullets and grenades  
If we learn to fight with love we  
Can finally end our war with hate

And they can build up emerald walls  
But that won't bring you back to me  
Cause I know you're with the angels  
Defying gravity

I know you're somewhere with the angels  
Defying gravity
