

I like my coffee black  
Tell me how do you like yours  
I saw you sneak a snack  
Do you want a second course?

Oh, you keep on coming back  
Each time we open the doors  
Yeah, you've been on my mind  
So can you tell me have I been on yours?

Just in case you wanna stop in, I clock in  
Every day at quarter to noon  
And if you just happen to be round much, after lunch  
I can take my break real soon for you

I'm always early shift on the weekend  
If you want something sweet and  
I can feed your appetite  
And if you want a slice of baked heaven  
I'm here till eleven tonight, night

Do you wanna taste my pie?  
Cause it's especially sweet  
And though the oven's high  
I always turn up the heat

I know you're trying to diet  
But you're eyeing everything that you see  
So there ain't no use in hiding  
You need someone to confide in  
And your secret's safe with me

Just in case you wanna stop in, I clock in  
Every day at quarter to noon  
And if you just happen to be round much, after lunch  
I can take my break real soon for you

I'm always early shift on the weekend  
If you want something sweet and  
I can feed your appetite  
And if you want a slice of baked heaven  
I'm here till eleven tonight, night
