

Forever

Todrick Hall

Yeah, yeah, yeah
I thought I was allergic to love
Like my heart had the flu
But your sin it was my medicine
No more saying hachoo

Now your touch is my addiction
And your kiss is my prescription
Is it real or is it fiction
Only thing I was missing

Was somebody to want me
Like I was a pink starburst
Cause you make my heart skip like a stone off the water
And I know when L-O and V-E come together
And though the music dies, the rhythm of our heartbeat last forever
And though the music dies, the rhythm of our heartbeat last forever

(Dance, dance)
Yeah, yeah, yeah
Por siempre
Yeah, yeah, yeah
Por siempre

Your silhouette is ingrained in my mind
Let's get naughty tonight
Move your body the way that I like
And you got me for life

Cause your touch is my addiction
And your kiss is my prescription
Is it real or is it fiction
Only thing I was missing

Was somebody to want me
Like I was a pink starburst
Cause you make my heart skip like a stone off the water
And I know when L-O and V-E come together
And though the music dies, the rhythm of our heartbeat last forever
And though the music dies, the rhythm of our heartbeat last forever

(Dance, dance)
Yeah, yeah, yeah
Por siempre
Yeah, yeah, yeah
Por siempre

Want somebody to want me
Like I was a pink starburst
Cause you make my heart skip like a stone off the water
And I know when L-O and V-E come together
And though the music dies, the rhythm of our heartbeat last forever
And though the music dies, the rhythm of our heartbeat last forever

(Dance, dance)
Yeah, yeah, yeah
Por siempre

Yeah, yeah, yeah
Por siempre
