

# Green

Todrick Hall

Citizens of Oz Angeles,  
Coming to you live from Emerald City Hall  
Tonight we welcome you to the Ozcars  
Here are your nominees

Green! Is a way of life  
And the millions would kill to see their name up in the lights  
For the green is okay tonight  
But be careful what you wish  
Cause you might get what you like

And fame is what you make of it  
And when your whole wide worlds a stage  
How much can you flaunt it?

How much can you flaunt it?  
How much do you want it?  
There's something about the..

They want that green money  
But the, the green lies  
And the grass ain't greener on the other side  
To get that green money  
Would you walk that green mile  
Then pose for the camera while you wave and you smile  
For the (Green)

Come and get it  
C-Come and get it

Won't you get it, forget it  
I'll bet that you're gonna regret it, oh  
Tonight you got the green light  
But once you go green, you're green for the rest of your life

Greed, is a green disease  
It's impossible to kill  
When the whole world is at your feet  
When you're green  
Life is bittersweet  
There's a portion that is fortunate  
They rest while I repeat that

Fame is what you make of it  
And when your whole wide worlds a stage  
How much can you flaunt it?

How much can you flaunt it?  
How much do you want it?  
There's something about the..

They want that green money  
But the, the green lies  
And the grass ain't greener on the other side  
To get that green money  
Would you walk that green mile  
Then pose for the camera while you wave and you smile

For the (Green)

Come and get it  
C-Come and get it

Won't you get it, forget it  
I'll bet that you're gonna regret it, oh  
Tonight you got the green light  
But once you go green, you're green for the rest of your life

They want that fame and fortune (green)  
Lights, camera, action, fashion too  
And they will stop at nothing (green)  
To get just one more taste of you [x2]

You, you, you, you

They want that green money  
But the, the green lies  
And the grass ain't greener on the other side  
To get that green money  
Would you walk that green mile  
Then pose for the camera while you wave and you smile  
For the (green)

Come and get it  
C-Come and get it

Won't you get it, forget it  
I'll bet that you're gonna regret it, oh  
Tonight you got the green light  
But once you go green, you're green for the rest of your life
