

# Let Me Rock

Todrick Hall

Don't make me sing the blues, I've never been a fan  
I know just who I am and I don't think I can  
Sing the I-love-you's, I'm not the country kind  
Color outside the lines, I'm all out of my mind

But when you give me a guitar  
You've never seen a brighter star  
I know the world will try to name me  
Tame me, but they can never change me

You gotta let me rock  
Let the whole world know that we gon' put on a show  
Till the speakers blow, let me rock  
Till the beat to drop cause we just can't stop  
Till the speakers pop, let me rock  
Let the whole world know that we gon' put on a show  
Till the speakers blow, let me rock  
Till the beat to drop cause we just can't stop  
Till the speakers pop, let me rock

But when you give me a guitar  
You've never seen a brighter star  
I know the world will try to name me  
Tame me, but they can never change me

You gotta let me rock  
Let the whole world know that we gon' put on a show  
Till the speakers blow, let me rock  
Till the beat to drop cause we just can't stop  
Till the speakers pop, let me rock  
Let the whole world know that we gon' put on a show  
Till the speakers blow, let me rock  
Till the beat to drop cause we just can't stop  
Till the speakers pop, let me rock
