Todrick Hall

Lover boy, don't you wanna come run away with me?  
Come and play with me, play with me  
Lover boy, don't you wanna come put your hands on me?  
Come and dance with me, dance with me Lover Boy

If I could build a boy, he would be just like you  
He'd know all of the tricks to break my heart in two  
Manipulate me baby that's what bad boys do  
Tonight I'm on the look out you a you pt. 2

And you're so charismatic; you're making me blush  
And your touch is just like magic; I don't wanna rush  
And your body: gotta have it; I think I'm in love, love  
You're my favorite bad habit; I can't get enough

Lover boy, don't you wanna come run away with me?  
Come and play with me, play with me  
Lover boy, don't you wanna come put your hands on me?  
Come and dance with me, dance with me Lover Boy

Run away with me  
Come and play with me  
Put your hands on me  
Come and dance with me, Lover Boy

Run away with me  
Come and play with me  
Put your hands on me  
Come and dance with me

If I could make a man he would be all I need  
I introduce him to my insecurity  
Ignore the other guys, only have eyes for me  
Tonight I'm on the lookout and you're all I see

And you're so charismatic; you're making me blush  
And your touch is just like magic; I don't wanna rush  
And your body: gotta have it; I think I'm in love, love  
You're my favorite bad habit; I can't get enough

Lover boy, don't you wanna come run away with me?  
Come and play with me, play with me  
Lover boy, don't you wanna come put your hands on me?  
Come and dance with me, dance with me Lover Boy

Run away with me  
Come and play with me  
Put your hands on me  
Come and dance with me, Lover Boy

Run away with me  
Come and play with me  
Put your hands on me

Don't you wanna see what we could be?  
You and I, let's take a dive into my fantasy

Paradise is calling, ring ring, if you're down, I'm all in  
But this heart ain't a toy, so can you tell me?

Lover boy, don't you wanna come run away with me?  
Come and play with me, play with me  
Lover boy, don't you wanna come put your hands on me?  
Come and dance with me, dance with me Lover Boy

Run away with me

Put your hands on me  
Come and dance with me, Lover Boy
