

Snow Falling

Todrick Hall

Are you coming through?
My friends are at the club tonight
But I'd rather be with you
So whatcha gonna do? Whatcha gonna do?

I'm on my way home
Just waiting for a special guy
To hit me on my phone
'Cause I don't wanna be alone, don't wanna be alone

It's giving cuddle weather
Netflix and chill kinda vibes
Don't need no winter sweater
As long as I got you by the fireside
Baby, when we're together
I just wanna enjoy the ride
I'm giving you my heart forever
All I want for Christmas

Is to be where you are, where you are
Christmas don't have to be white
As long as you're holding me tight tonight
So baby, wrap me up in your arms, safe and warm
You got my heart and I
Just thought you should know, my darling
There's much more than snow falling

Much more than snow falling
Snow falling

You ain't gotta rush
But I'm underneath the mistletoe
And I think I got a crush
And I'm missing your touch a little too much

Oh, you got me in a trance
So I had to tell them other hearts
That they don't stand a chance
So darling take my hand and let's slow dance, baby

It's giving cuddle weather
Netflix and chill kinda vibes
Don't need no winter sweater
As long as I got you by the fireside
Baby, when we're together
I just wanna enjoy the ride
I'm giving you my heart forever
All I want for Christmas

Is to be where you are, where you are
Christmas don't have to be white
As long as you're holding me tight tonight
So baby, wrap me up in your arms, safe and warm
You got my heart and I
Just thought you should know, my darling
There's much more than snow falling

Baby, there's more than snow falling
Much more than snow falling
Much more than snow falling
Much more than snow falling
(For you, for you, for you, for you)
Much more than snow falling for you
Baby, there's more than snow falling
Much more than snow falling
Much more than snow falling
Much more than snow falling
Much more than snow falling for you
