

So Cold

Todrick Hall

Love me today, Love me always
Love through all my heartaches
Love me in bed, Love me your set
Love me through all my mistakes

Cause I'm freezin' and you're leavin'
Can we leave it how it was
Cause the heat is on but the heat is gone
I just need you home and hurry because

It's so cold here without you baby
And this fireside isn't enough
And girl I don't know if I told you lately
But I'm powerless without your love
But it's so cold (so cold)
Come warm me up, Come warm me up
With your love
So cold
Come warm me up, Come warm me up
With your

Love me for free, Love me for me
Love me even when I fall
Love me until you love me for real
Love me with all of my flaws

But I'm freezin' and your leavin'
Can't we leave it how it was
And the heat is on but the heat is gone
I just need you home, and hurry because

It's so cold here without you baby
And this fireside isn't enough
And girl I don't know if I told you lately
But I'm powerless without your love
But it's so cold (so cold)
Come warm me up, Come warm me up
With your love
So cold
Come warm me up, Come warm me up
With your Love

Baby hurry cause I'm running empty on air
Love is a journey and we're only half way there
Girl I love you forever but that just wouldn't be long enough
I promise you now, I honestly vow
I'm begging you please just come back to me

It's so cold here without you baby
And this fireside isn't enough
And girl I don't know if I told you lately
But I'm powerless without your love
But it's so cold (so cold)
Come warm me up, Come warm me up
With your love
So Cold
Come warm me up, Come warm me up
