

Take A Picture

Todrick Hall

I see 'em gawkin'
But I couldn't care less
I see 'em eyein' me, tryin' to see
What's up under my dress
I see 'em stalkin'
And I think I know why
They be gettin' whiplash (whiplash)
Every time I walk by, oh

Do you want a piece of this?
Go ahead and make a wish
But, baby, there's a waitin' list
Ah, ah, oh
They tryin' to get me all alone
You know you wanna take me home
And put me on the camera phone
Ah, ah

So take a picture, it'll last longer, oh
Since you done fixed your eyes upon me
Lookin' at me like you know me
Take a picture, it'll last longer, oh
No need to stare, let me fix my hair
So you can take my picture

Snap it, snap it, snap it, oh
Snap it, snap it, snap it

Yo, yo, yo
So you tryin' to get a picture of the posse now?
Let me get my lips poppin', make it glossy now
Snap it from the right angle cause we bossy now
So, what, you thinkin' you the frickin' paparazzi now?
These bums need jobs cause they unemployed
You can't shoot HD with a polaroid
Tryin' to stay PG, but you can't avoid
Tryin' to get a snapshot of my ass-teroid

So take a picture, it'll last longer, oh
Since you done fixed your eyes upon me
Lookin' at me like you know me
Take a picture, it'll last longer, oh
No need to stare
Let me fix my hair
So you can take my picture

Snap it, snap it, snap it
